

Transportation Planner (Berkeley Office)

Parisi Transportation Consulting provides traffic engineering and transportation planning services throughout the San Francisco Bay Area. Our services include planning and design for Complete Streets, Safe Streets, Active Transportation, traffic engineering, and transportation planning projects and programs.

Parisi is a unique transportation consulting firm: multi-disciplinary with a diverse portfolio, results-driven, and innovative. We see projects through from conception, design and construction; dozens of our projects are constructed each year. We have small-scale projects that take a little as a few weeks, to major planning and design projects spanning several years. Our reputation is for being extremely hands-on and for developing creative and effective solutions to complex transportation issues throughout the Bay Area.

Parisi has offices in Berkeley and Sausalito, California.

Our team members participate in every stage of transportation project development, including planning, designing and engaging with the public and our clients.

Parisi is looking for a Senior Transportation Planner to join our expanding team in our Berkeley office.

Responsibilities

The successful candidate will work collaboratively with members of the Parisi team and manage a variety of projects and tasks in both transportation planning and traffic engineering. Projects include: Complete Streets, pedestrian and bicycle facility planning, policy development, Safe Routes to School, and design assignments. The ideal candidate will have:

- experience using “big data” to develop improvement recommendations for improving transportation;
- a working knowledge of transportation and traffic planning/engineering principles and practices (e.g., MUTCD, HCM, NACTO);
- a passion for developing and creating green transportation solutions for our region; and
- an understanding of traffic analysis (e.g., Synchro modeling, traffic impact identification).
- Experience using GIS
- Ability, under general supervision, to design, study, compile, analyze, evaluate and prepare reports for various planning projects
- Experience preparing and designing maps, charts and other graphic presentations to illustrate transportation planning and engineering concepts

Candidates with experience with preparing transportation studies, and with interest and experience in bicycle and pedestrian planning and design are preferred.

Additional skills include the ability to coordinate projects, problem solve, communicate clearly, able to communicate efficiently and effectively orally and in writing, converse effectively with clients and co-workers, and use basic computer applications.

The person hired for this position will participate in all stages of project development including presentations and client meetings, fieldwork, and the preparation of technical reports, maps, charts and other graphic materials to illustrate plans or reports. This candidate will represent the firm at public meetings, client meetings and other project-related venues.

He/she will participate in the oversight and mentorship of junior-level planners, ensure the quality of deliverables, and lead business opportunity pursuits in transportation planning.

Qualifications

The successful candidate will have a Bachelor's Degree in Urban Planning, Civil Engineering, or related field. Possession of a AICP certification and/or PE license encouraged. He/she will have at least three (3) years of progressively responsible professional experience in transportation planning and/or traffic engineering, have excellent oral and written communication and presentation abilities, and possess outstanding interpersonal skills.

We are looking for individuals who are motivated, enjoy working in multi-disciplinary teams, and are self-starters.

Salary and Benefits

The salary for this full-time position is dependent on qualifications. Our benefits package includes health insurance, paid time off, and a retirement plan that is matched by the company. We provide incentives to employees who use transit, walk or bicycle to work.

How to Apply

Qualified applicants should email a cover letter and their resume in a single PDF file to Patrick Golier at patrick@parisi-associates.com. No phone calls, please.
